American Freedom Alliance

The American Freedom Alliance is a non-political, non-partisan movement which promotes, defends and upholds Western values and ideals. The Alliance sponsors conferences, publishes opinions, distributes information and creates networking groups to identify threats to Western civilization and to motivate, educate and unite citizens in support of that cause.

THE DARWIN DEBATES: A FORUM FOR DIALOGUE

AN AFA EVENT SERIES SUNDAY, OCTOBER 25- MONDAY, NOVEMBER 30, 2009

On the 150th anniversary of the publication of Charles Darwin's seminal work, *The Origin of Species*, the American Freedom

Alliance is pleased to present a series of events in Los Angeles devoted to an examination of issues surrounding the debate on the origins of life.

The question of life's origins may seem an issue relevant primarily to scientists. But the answers to the inquiries about the beginnings of life on earth have far reaching political, social, cultural and psychological implications for humanity.

This important series of film screenings, debates, interviews and book readings, will present an opportunity to examine these issues in a fair and balanced way, offering compelling arguments and insights from both sides of the divide between evolutionary theory and intelligent design.

All residents of Southern California, regardless of political persuasion, religious beliefs, philosophical stance or scientific conviction, are invited to join us in these vital discussions on who we are and where we came from.

AFA's Cinema Gateway

Sunday, October 25, 2009 7:00 PM

Darwin's Dilemma

PREMIERE!

Filmed on four continents, this fascinating documentary examines some of the most important fossil discoveries ever made and with them, a mystery deeper than Charles Darwin ever imagined. For the fossil record of the Cambrian Explosion does not reveal the gradual development of life forms as Darwin posited in his work, but a period in which compound eyes, articulated limbs, sophisticated sensory organs and skeletal frames burst into existence seemingly out of nowhere.

Produced by Illustra Films Directed by Lad Allen

We Are Born of Stars

PREMIERE!

This extraordinary IMAX film (3D re-mastered) provides a view of the true structure of DNA never before witnessed in a wide screen format. Once one views DNA in motion, with the full scope, intricacy and supercoiling magnificence of this essential building block of life, the issue of our origins takes on an even deeper mystery and wonder.

Panel Discussion:

A panel discussion will follow the screenings featuring Lad Allen, Jonathan Wells and David Berlinski

Location:

IMAX at the California Science Center, Exposition Park
39th Street & Figueroa Street, Los Angeles

Admission:

Screenings: \$25.00 Students: \$10.00

Private Reception: (5:30 pm - 7:00 pm): \$250.00

For private reception reservations call (310) 444-3085

For tickets to screening please access online ticket sale at www.americanfreedomalliance.org or call the AFA office at: (310) 444-3085
